OBJECTIVE

Software Engineering student with strong foundations in Data Structures, Algorithms, and full-stack development. Passionate about building scalable backend systems and AI-powered applications. Seeking an internship to contribute to real-world products and grow in a fast-paced engineering environment.

EDUCATION

Sreyas Institute of Engineering & Technology

Hyderabad, India

Bachelor of Technology -Computer Science and Engineering; CGPA: 9.12
2023-2027

CERTIFICATES / ACHIEVEMENTS

Hacker Rank Python (Basic) Certification – Demonstrated proficiency in Python programming, problem-solving, and algorithmic thinking by successfully completing certified coding assessments on Hacker Rank
Credential link: <https://www.hackerrank.com/certificates/iframe/be949d26ac85>

SKILLS

Programming Languages: C, Python, JavaScript

Core CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming (OOP), Operating System, Computer Networks

Databases: MySQL, MongoDB

Frameworks: Flask

Tools & Technologies: Git, AWS, RESTful Web Services

Languages: English, Hindi, Telugu

Others: Leadership, Communication, Collaboration, Project Management, Team work

PROJECTS

1. ATM Card Simulator

- Developed a backend-driven ATM simulation system using Python, implementing core banking operations like withdrawal, deposit, and balance inquiry.
- Designed structured data handling and modular logic to simulate real-world transaction workflows and ensure data consistency.

- Focused on object-oriented design and efficient control flow to model scalable financial operations.
